# XPLUS 35

Great usability and excellent image quality

## Flexible Viewing Options

- Medical foldable dual monitors
- Support of additional 3rd monitor through HDMI cable to let the live images shared in real-time

## Wide Clinical Spectrum

- Diverse Image Processing S/W including recursive filtering, motion detection, edge enhancement, cine mode, etc.

## Smart Color Operation System

- Intuitive color-coded brakes and handles for easy operation

## Compact and Sleek Design

- Compact and counterbalanced design to utilize the space and make the positioning easier

## High-quality Images at Low Dose

- 3.2kW powerful monoblock generator to provide precise and clear image output

**XPLUS 35**, a high-performance mobile C-arm x-ray system with its revolutionary versatility, efficiency and the superb image resolution provides you with precise image output and efficient workflow in any clinical environment. With XPLUS 35, experience the true difference for complete satisfaction.

## | Strong Point |

- 135° orbital movement, 790mm free space and 1010mm SID to optimize for various clinical environments
- Bi-directional Laser Guide for precise positioning and lower patient radiation dose
- DAP (Dose Area Product) Meter for more accurate dose tracking and display
- Key-lock system (optional) and RAID 1 for security and reliability
